elleci kitchen

**Organizzazione, stile ed emozioni:
la cucina è progettata sulla vita delle persone.**

La cucina è il cuore della casa, dove si condividono storie, sorrisi e piccoli momenti di felicità. Una colazione veloce prima di affrontare la giornata, un pranzo in famiglia, una cena intima o con gli amici: ogni istante vissuto insieme a chi ami ha un valore immenso.

Elleci Kitchen è complice della tua serenità quotidiana con soluzioni studiate per creare spazi belli e incredibilmente pratici, che trasformano la routine in un'esperienza coinvolgente e gratificante.

La materia è protagonista. Le tonalità naturali del Granitek, le nuance intense e sofisticate del Keratek e le speciali edizioni total black valorizzano il design dei lavelli. L'area di preparazione evolve in un piano di lavoro versatile, grazie agli accessori progettati per muoversi con te e a miscelatori che abbinano funzionalità avanzate a finiture trendy. La base sottolavello diventa uno spazio ben organizzato, tecnologico e performante con il sistema di filtraggio acqua Elleci Pure e smaltimento dei rifiuti organici Elleci Zero, che rispondono al desiderio di uno stile di vita comodo e sostenibile. Le collezioni di piani cottura in vetro e colorati, forni e piccoli elettrodomestici in family feeling ti offrono la tecnologia ideale per esprimere la tua creatività, divertirti e cucinare con amore. In una cucina pensata per te, tutto è più facile e hai il tempo di godere di ciò che conta davvero, ogni giorno.

Materials

In the Elleci Innovation Centre, our team of researchers merges expertise and industry-leading technology with innovation. The resulting materials offer high performance, created to have a positive impact on people's daily lives.

GRANITEK

A material engineered with quartz sand whose distinguishing features are its slightly textured stony surface and natural colours. The technology brings out the stone's inherent qualities and improves its performance, resulting in a hygienic, highly resistant and durable surface.

K91 WOOL

Come la carezza della lana più fine, il nuovo colore K91 Wool trova la sua identità in una nota morbida di calore che valorizza l'eleganza materica e l'intensità cromatica del Keratek.

Un bianco sofisticato, pensato per dialogare con tonalità naturali e finiture preziose, e per interpretare il linguaggio contemporaneo che unisce design, moda e cultura del progetto.

OPERA

NUOVA ARMONIA FORMALE

Ispirata all'arte e alla natura, Opera celebra la bellezza come tensione verso l'essenziale, capace di restituire equilibrio, comfort emotivo e qualità all'abitare contemporaneo. È il manifesto di un design empatico e sensoriale, intimamente connesso ai ritmi interiori, in cui forme morbide, proporzioni calibrate e nuance naturali delineano le direttrici estetiche di una nuova idea di armonia.

Opera

Presenza scenica, armonia formale e funzionalità intelligente: Opera è la nuova vasca che reinventa il fascino delle forme morbide. Disponibile in tre installazioni – top mount con bordo rialzato, inset e undermount – e due colori iconici in total look, dona all'ambiente stile ed eleganza contemporanea.

Mixology

Smart shapes, modular solutions and flexibility create a finite space with an infinite number of uses. Creatively inspired by professional workstations, Mixology juxtaposes and superimposes the figure of the home chef with that of the bartender, turning the spotlight on the art of mixing drinks and new trends in entertaining at home.

Dialogo

Intuition is a light-bulb moment. The preparation area evolves into a seamless system in which all elements work together, enhancing performance. The rational design exploits the size of the extra-large bowl, slanted to improve drainage. The signature feature of Dialogo collection is the equipped track: an additional space designed to enhance modularity and allow total interchangeability with the accessories of the main sink.

UNDERMOUNT WORKSTATION

The Time undermount collection comes in two installation options: the precise and elegant undermount version, or the classic top mount. The drain system is concealed by the cover to maintain aesthetic harmony inside the bowl or create colour contrasts.

Taps

On-trend finishes, quality built to stand the test of time and increasingly green-minded solutions

From fashion to design, **Gun metal** is the latest on-trend colour, used to imbue these professional tap taps with a combination of contemporary refinement and a captivating industrial vibe.

Convenience and function: **the extendable hose** reaches every corner of the sink, for easier cleaning. The spray pattern control adjusts water flow to suit your requirements.

Our selection of tap taps made from high-quality 100% **stainless steel**: naturally hygienic, highly resistant and environmentally sustainable, with a brushed finish.

With the lever in the central position, the default setting is for the tap to dispense cold water, while the 2-step cartridge and low-flow spout **avoid unnecessary waste**.

Tourmaline PURE

Dual-lever three-way water filter tap with swivel spout.

Separate levers and spouts for mixed water and filtered water

ELLECI PURE

AFICAMGR

elleci pure

Elleci Pure Micro

The Elleci Pure Micro filtration system achieves excellent performance with the combined action of different methods

1. Microfiltration

Traps rust, mold, algae and suspended microparticles as small as 0.5 microns

2. Activated carbon

Removes chlorine, metals and toxic residues, using 100% sustainable activated carbon

3. Silver salts

Prevents the growth of microorganisms, having a powerful antibacterial action

CARATTERISTICHE

Multi-action 0.5-micron filter with activated carbon and silver salts

Service life

15,000 l/year — ideal for a single family's annual consumption

NB The filtration system works effectively with drinking water only

ACCESSORIES INCLUDED

Filter head, valve, digital water meter

DLL01603

DEEP CLEANER Stain remover

Stain remover spray cleaner, removes even the most stubborn stains on all Elleci composite sinks and washbasins.

200 ml
DLA01603

DAILY CLEANER Limescale remover

Limescale remover spray cleaner, dissolves scale while being kind to surfaces. Recommended for periodic cleaning of Elleci composite sinks and washbasins.

100 ml
DLP01601

Beauty Protector

Protective spray cleaner, protects the product from dirt and limescale and keeps it looking beautiful, reviving its colour and boosting its water repellence.

250 ml
DLA01602

DAILY CLEANER Clean Power

Spray cleaner specifically formulated for coloured and enamel surfaces. Recommended for daily cleaning of coloured Elleci tap taps and appliances.

DKP01000

FAST CLEAN Sponge kit

Kit comprising 3 non-scratch two-sided sponges designed to remove even the toughest dirt and grime. The white side tackles delicate surfaces without scratching them, while the soft blue side has plenty of absorption power.

DKP01001

FAST CLEAN Microfibre cloths

Kit comprising 2 highly absorbent microfibre cloths with a special chequered pattern for drying sinks and removing residues of all kinds without damaging the surface.

Care and maintenance

Your daily routine for a sink that always looks flawless

Elleci Beauty is a line formulated to bring out and protect the beauty of composite sinks. A daily care routine that will keep Elleci products looking and performing like new.

Remove any stains using a soft sponge and a mild dishwashing liquid or specific product from the Elleci Beauty line.

Dry the surface thoroughly with a soft cloth or microfibre to stop limescale deposits forming.

Rinse surfaces using plenty of lukewarm water.

To prevent limescale staining on the surface, it is best to give surfaces a deeper clean once or twice a week using a limescale remover cleaner like the Daily Clean limescale remover spray from the Elleci Beauty line.
